Invinitive Financial UK Ltd is the operator and administrator of The Invinitive SIPP. We are responsible for accepting contributions, arranging investments, processing transfers in/out, and facilitating benefit payments.

3. What Is a SIPP?

A Self-Invested Personal Pension (SIPP) is a type of personal pension plan that gives you, the planholder, a broader range of investment choices compared to a standard personal pension.

Through a SIPP, you can select and manage your own investments (subject to eligibility), giving you greater flexibility over how your pension funds grow.

You make contributions (subject to limits) into your SIPP; if these contributions are personal payments they will receive tax relief at your marginal rate. We can also accept Employer contributions. Over time, the

value of your SIPP will hopefully grow through capital growth, income, or both.

At “retirement” (the earliest age at which you can normally take pension benefits is age 55, rising to 57 from 2028), you can draw benefits in various ways, including taking up to 25% of your fund as a tax-free lump sum, purchasing an annuity, entering drawdown (flexi-access), or taking Uncrystallised Funds Pension Lump Sums (UFPLS).

4. Key Features of The Invinitive SIPP

4.1 Flexibility of Investment Choice

We offer a very wide Range of Eligible Assets. You can hold UK and overseas equities, collective investment funds including OEICs, unit trusts and exchange-traded funds and cash.

Direct Stocks and Shares: Clients can trade UK and international equities on recognised stock exchanges.

Fund Selection: Access to thousands of UK and overseas-**authorised** funds including actively managed funds, index-tracking funds, and ESG/green-labelled funds.

Dealing: Online dealing facility for dealing in shares, funds and ETFs. Telephone dealing is also available for non-urgent instructions (fees apply; see Section 7).

Cash and Deposit Management: Your SIPP holds a cash account to process contributions, benefit payments, and transactions. You can hold cash in our pooled deposit account earning interest at a portion of the prevailing rates.

4.2 Contribution Flexibility

Personal Contributions: Contributions receive tax relief at your highest rate of income tax (subject to the Annual Allowance).

Employer Contributions: Employers can pay contributions on your behalf.

Carry Forward: If you have unused Annual Allowance from the previous three tax years, you may be able to carry forward allowances to increase your current-year contribution limit.

Transfer In: You may transfer benefits from other registered pension schemes (including other SIPPs or defined contribution pensions) subject to scheme rules and Invinitive’s transfer-in criteria.

4.3 Benefit Flexibility at Retirement

Tax-Free Lump Sum (25%): You can take up to 25% of your Crystallised SIPP fund as a tax-free lump sum (subject to Lump Sum and Death Benefit Allowance limits).

Flexible Drawdown (Flexi-Access Drawdown): Once you Crystallize your funds, you can remain invested and draw an income flexibly.

Uncrystallised Funds Pension Lump Sums (UFPLS): You may take ad hoc lump sums from Uncrystallised funds, with 25% of each payment treated as a tax-free lump sum and 75% taxable as income.

4.4 Online Platform & Member Portal

Secure Online Access: 24/7 online access to your SIPP account details, valuations, transaction history, and performance reporting.

Real-Time Valuation: Real-time pricing for listed assets, with end-of-day valuations for funds.

Document Vault: Digital storage of all scheme documents, annual statements, contract notes, and trade confirmations.

Alerts & Notifications: Email alerts for deal confirmations, funding notices, and regulatory updates.

5. Risks

Investment Risk: The value of your SIPP investments can go up or down. You could get back less than you originally invested. Past performance is not an indication of future returns.

Liquidity Risk: We only allow liquid daily dealing positions, but some investments (those perhaps in difficulty) may be difficult to sell quickly at a fair price.

Market Risk: Economic, political, or market events may adversely affect the value of assets held in your SIPP.

Tax Treatment: Tax rules and reliefs may change in the future and are subject to individual circumstances.

Regulatory Changes: Changes in pension regulations could affect how and when you can access your funds, or the benefits you receive.

Fees Impact: Charges may erode investment returns over time; you should be comfortable that the level of fees is appropriate to your investment strategy and expected holding period.

6. Who Can Join The Invinitive SIPP?

Age Requirements: You can normally join The Invinitive SIPP from age 18 up to age 75.

UK Residency: UK resident and UK taxpayer (for tax relief purposes). Non-UK residents may join subject to tax advisers' guidance, but tax relief on contributions may not apply.

Pension Type: Individuals can set up a new Invinitive SIPP or transfer existing pension benefits from other registered pension schemes (including other SIPPs, personal pensions, stakeholder pensions, and benefits from defined benefit schemes subject to Acceptable Transfer Terms).

Minimum Funding: There is no minimum cash contribution to open a SIPP, but certain investment types and third-party platforms may have their own minimum requirements.

Higher-rate and additional-rate taxpayers must claim relief via self-assessment. Contributions are subject to the Annual Allowance (£60,000 for tax year 2025/26), subject to tapering for high earners. You may also carry forward unused allowances from the previous three tax years if eligible.

Your employer can also contribute to the Annual Allowance. No tax relief is granted on Employer contributions.

[8.2 Transfers Into Your SIPP](#)

You may transfer in defined contribution benefits from other SIPPs, personal pensions, stakeholder pensions, and certain other registered pension schemes. To do this you must complete Invinitive's "Transfer In" request, including providing scheme details and a current Illustration or benefit statement from your existing provider. Depending on the provider, transfers typically take 30–45 calendar days to complete.

[10. Drawdown and Benefit Options](#)

[10.1 Crystallisation Events](#)

We offer a number of different ways to access your pension, these include:

Flexi-Access Drawdown: Move any or all Uncrystallised funds into drawdown, take up to 25% tax-free lump sum.

Uncrystallised Funds Pension Lump Sum (UFPLS): Take 25% tax-free and 75% taxable from Uncrystallised funds.

[10.2 Lifetime Allowance changes](#)

From 6 April 2024, the Government abolished the Lifetime Allowance (LTA), removing the cap on the total amount that can be saved into pensions without incurring an additional tax charge. In its place, two new allowances have been introduced:

The Lump Sum Allowance, currently set at £268,275, and the;
Lump Sum and Death Benefit Allowance, set at £1,073,100.

These limits govern the maximum amount that can be taken tax-free and the tax treatment of benefits paid on death. The annual allowance remains at £60,000 for most individuals, and the Money Purchase Annual Allowance continues to apply at £10,000 for those who have flexibly accessed their pension. These

changes reflect the Government's efforts to simplify the pension tax framework while retaining important controls on tax-privileged savings. Clients are encouraged to seek guidance if unsure how these changes may impact their retirement planning.

10.3 Tax-Free Lump Sum (Pension Commencement Lump Sum)

You are entitled to 25% of your Crystallised fund as a tax-free lump sum. Any excess above the Lump Sum and Death Benefit Allowance will attract a charge.

This tax-free cash can be taken in as many payments as you want. It doesn't have to be taken all in one go. Tax Free cash is capped at £268,275 unless you have any protections in place which may increase the Lump Sum and Death Benefit Allowance amount.

11. Tax Treatment

Tax Relief on Contributions: Personal contributions receive basic-rate relief (20%) automatically. Higher-rate taxpayers claim additional relief via self-assessment.

Growth and Income: Investments within the SIPP grow freely of UK income tax and capital gains tax.

Tax on Withdrawals: 25% of the Crystallised fund is tax-free, and 75% is taxed at marginal rate.

Lump Sum and Death Benefit Allowance (LSDBA): £1,073,100 for 2025/26. Exceeding the LSDBA triggers tax charges.

Money Purchase Annual Allowance (MPAA): £10,000 if you have accessed pension flexibly.

Inheritance Tax (IHT): Funds passed to beneficiaries tax-free if death before age 75; taxable at marginal rate if after age 75.
